Subject : The Exam Confidence course

Mr. Eric Lauzon,

First, I want to thank you from the bottom of my heart for the course you offered to our students on February 11, 2015. The results are already being felt by our girls.

The organization of the course was easy due to your excellent cooperation.

We believe that for our school this course should be held every year. Student feedback are extremely positive for both the form and the content of the course. The goal seems achieved. They now have better tools to prepare for their exams while feeling confident!

The general comment emerging from our students is why did we not have this course before?

Personally, I would say: *All teachers should attend this course for themselves and to help their students. This comment applies equally to parents.*

We wish long life to this organization and thank you Lance King for having established such a program.

Eric, thank you for making the course so lively and enriching for our students.

Hope to meet again soon.
