

May 2016

“My 15 year old daughter also attended your seminar at this spring, she came home as a different person. She was beaming and didn't stop talking about what she had learned from your seminar. She sat her little sister down and told her everything she had learned from you. felt she had learned something that day that would make her a better student and something she felt she could use for her whole life. Thank you for that, Lance! That was a real gift you gave her.”
